SUMMARY

I am a B.Tech ECE graduate, skilled in building responsive web applications using HTML, CSS, JavaScript, and the MERN stack (MongoDB, Express.js, React, Node.js). I have practiced data structures and algorithms to strengthen my problem-solving skills. I enjoy creating clean, efficient code and building solutions that improve user experience and functionality. I am eager to begin my journey as a software developer and contribute to impactful, real-world projects.

EDUCATION

Masai School

Full Stack Web Development Program

Bengaluru

Feb. 2025 – Present

Anantha Lakshmi Institute of Technology and Sciences

B.Tech in ECE- 7.99 CGPA

Anantapur, Andhra Pradesh

Dec. 2021 – April. 2025

EXPERIENCE

Web Development Intern

International Institute of Digital Technologies

Jul. 2024 – Aug. 2024

Remote

• Responsibilities:

Worked on HTML, CSS, and JavaScript tasks, gaining foundational knowledge in Frontend Development. Gained Knowledge on Frontend-Development.

• Key Achievements:

Completed assigned tasks within deadlines.

PROJECTS

StyleDen – E-Commerce Website | [Live Link](#) | [GitHub](#) | HTML, CSS, JavaScript

Personal Project

- Built a **responsive e-commerce platform** with role-based login using **Firebase Authentication**.
- Customers can browse products, add to cart, and view profiles, while Vendors can manage products with **real-time updates**.
- Developed with **modular JavaScript** for smooth navigation, dynamic UI, and cloud-integrated performance.

Meme Hub – Meme Sharing Platform | [Live Link](#) | [GitHub](#)

Personal Project

- Designed a **responsive web app** for browsing, viewing, and sharing trending memes.
- Created a **clean, engaging UI** with seamless navigation for better user interaction.
- Built with **HTML, CSS, and JavaScript**, focusing on a fun and interactive user experience.

CERTIFICATIONS

- Course Completion Certificate in “Frontend Development” from Prepleaf by Masai
- Hackathon Certificate from Masai for participating in a project-based coding event.
- Certificate of Completion in “MS Office” from Mythri Ojas Academics, [September 2023 to December 2023].

CODING PROFILES

Solved **240+ LeetCode problems**, gaining strong proficiency in **Data Structures, Algorithms, and Problem-Solving**.

- [LeetCode](#)

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML/CSS, MongoDB

Libraries/Frameworks: React.js, Node.js, Express.js

Developer Tools: VS Code, Git, Postman
